

# Battle Mode Teacher Guide

A Fun Multiplication Game for Your 4th-5th Grade Classroom!

## Multiply Monsters

⭐ Welcome to the monster math kingdom! Let's multiply with monsters! ⭐

👋 What's your monster name? 👋

Enter your monster name

🚀 Enter the Monster Kingdom!

### What is Battle Mode?

Battle Mode is an exciting multiplayer math mode where your students compete in real-time to solve multiplication problems! It's like a friendly math tournament right in your classroom.

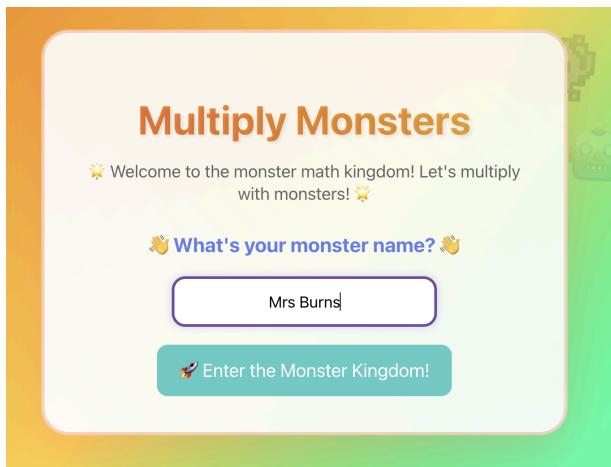

#### Perfect for:

- 📚 Math centers and rotations
- 🎉 End-of-lesson fun activities
- 🏆 Friendly competition and motivation
- 👤 Whole class participation
- 📱 Any device with internet access

# Quick Start Guide

## Step 1: Teachers Set Up Your Game Session

1. Go to the multiplication trainer website (<https://math.ericellisdesign.com>)
2. After centering your name, click "Classroom Battle Mode" on the main menu
3. Choose "Create Session" (teacher controls)
4. Select which battle you'd like start (hint: Monster Race = factors up to 12)
5. Write down your 4-character session code (like "ABCD")

## Classroom Battle Mode

Join your classmates in an epic monster math battle! 🦷

### >Create Classroom Session

Teachers: Start a new math battle for your students!

### Join Classroom Session

Students: Enter a session code to join the battle!

← Back to Menu

## Create Classroom Session

Hello Teacher Mrs Burns! Set up a monster math battle for your students.

Choose Battle Mode:

⏳ Monster Race (60 seconds)

🦷 Boss Monster Battle (60 seconds)

🚀 Create Session

← Back

# Classroom Lobby

Session Code: **Y59C**

Share this code with your students!

 Students Joined (0):

*Waiting for students  
to join...*

 Start Battle!

 Cancel Session

System S

## Step 2: Get Students Connected

1. Tell students to visit the website on their devices (<https://math.ericellisdesign.com>)
2. After they enter their name, have each of them enter "Battle Mode" just like you did
3. Students choose "Join Classroom Session"
4. They enter YOUR session code
5. They can immediately click "Join Battle!" which will take them into a lobby while they wait for you to begin the game

# Waiting for Battle

Session: Y59C

Teacher: Mrs Burns

Mode: Monster Race (60s)

Fellow Warriors (1):

Johnny Student

Ready!

Waiting for your teacher to start the battle...

← Leave Session

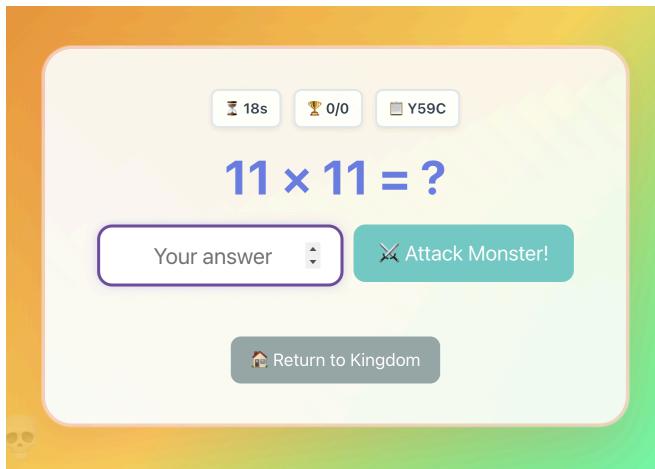

### **Step 3: Start the Battle!**

1. Watch as student names appear on your screen
2. When everyone's ready, click "Start Battle!"
3. A 3-second countdown begins... 3... 2... 1... GO!
4. Students race to solve multiplication problems!
5. You monitor their progress on the Battle Monitor

## Step 4: How Students Play

1. Each student gets their OWN multiplication problem
2. They type their answer and hit Enter
3. Correct answers earn points and show new problems
4. Wrong answers get a gentle "try again" message
5. The leaderboard updates in REAL TIME!
6. Once the timer ends, both teachers and students see Battle Results

## Teacher Controls & Tips

### **During the Game:**

1. Watch the live leaderboard - see who's leading!
2. Monitor student progress - see how many problems each student solved
3. End the game early if needed with the "End Session" button
4. Encourage struggling students - they get problems at their own pace, but have them guess if they aren't sure. The game rewards the highest volume of right answers.

### **Best Practices:**

1. Sessions work great for 5-15 minutes
2. Perfect for groups of 5-30 students
3. Students can use phones, tablets, or computers
4. Celebrate effort, not just winners!
5. For extra practice, have each student use single game mode on the main menu

## Troubleshooting Made Easy

### **My student can't join!**

- Double-check they typed the session code correctly
- Make sure they clicked "Join Session" (not "Create Session")

### **A student got disconnected!**

- They can rejoin using the same session code and name
- Their progress will be saved!

### **The game isn't starting!**

- Make sure YOU (the teacher) clicked "Start Game"
- Only the session creator can start the battle

### **I need to end the game early!**

- Click "End Session" on your teacher screen
- All students will see the final results
